Contract Title : **Perth High Street, George Street to Skinnergate , Streetscape Works**

Contract Reference ;

Contract Coverage : **Perth and Kinross Council**

The Pedestrianised Zone in Perth is to be extended to include the section of Perth High Street between George Street and Skinnergate and also Skinnergate itself. To help control vehicle movements within the Zone the direction of traffic flow in most streets within the Zone is to be reversed so that the only vehicular entry point to the Zone will be on High Street at George Street. Automatic Rising Bollards are also to be installed at the entry point.

Modifications are required to the existing streetscape layout of High Street to accommodate the Rising Bollards and to facilitate turning manoeuvres from High Street into Skinnergate and Kirkgate.

The works include altering kerblines in concrete, natural stone and block paviers; re-constructing carriageway and footway areas in block paviers, blacktop and concrete slabs; associated alterations to drainage and services; installation of Rising Bollards and alterations to street lighting, street furniture and road signs.

Applications are invited from suitably experienced and qualified contractors to carry out the works.

Interested contractors must be registered with both Constructionline and CHAS and Registration Numbers must be supplied on application

The works will be let on the basis of a priced contract with bill of quantities.

Contract award will be based on the most economically advantageous terms for the council and the criteria for evaluation will be detailed within the tender documentation
