

Glass

Recycling for your business

Everything here

can be recycled here

Why should your business recycle glass?

Over 300 businesses already benefit from this recycling service with around 20 tonnes of glass being collected and recycled into new glass products each week.

Many businesses find that glass is one of their heaviest and bulkiest items. Glass is 100% recyclable and can be recycled endlessly without loss of quality.

Recycling your glass bottles and jars will cost your business less than disposing of them as general waste. For colour segregated collections, there is a flat rate annual charge, regardless of the amount of glass your business produces. Mixed Glass collection charges will vary depending on the number of containers and collections you require.

You can recycle all types of glass bottles and jars:

Yes Please

- ✓ Wine, beer and cider bottles
- ✓ Whisky and other spirit bottles
- ✓ Alco pop bottles
- ✓ Soft drinks bottles
- ✓ Sauce, oil and vinegar bottles
- ✓ Coffee and tea jars, cooking sauce and spice jars

No Thanks

- ✗ Crockery
- ✗ Drinking glasses
- ✗ Sheet glass
- ✗ Kitchen glassware (e.g Pyrex)
- ✗ Light bulbs

Please remove lids and tops and rinse bottles and jars contaminated with food.

How can you recycle your business glass?

Glass bottles and jars are collected in 240 litre red-lidded bins

Segregated Glass:

'Slim Jim' containers with colour coded labels can be provided for the indoor collection of segregated glass bottles and jars. A trolley for wheeling the Slim Jims to the corresponding red-lidded bins is also available.

Mixed Glass:

Businesses unable to colour segregate glass can have a mixed glass collection service.
