1. INTRODUCTION TO THE PUBLICATION SCHEME

The Freedom of Information (Scotland) Act 2002 (FOISA) provides individuals with a right of access to all recorded information held by Scotland's public authorities. Anyone can use this right, and information can only be withheld where FOISA expressly permits it.

Section 23 of FOISA also requires that all Scottish public authorities maintain a publication scheme. A publication scheme sets out the types of information that a public authority routinely makes available. Publication schemes are high level, strategic documents in which a public authority commits to making published information reasonably available to the general public. This ensures that published information held by authorities is open, accountable and transparent at all times.

This scheme has been approved by the Scottish Information Commissioner, who is responsible for enforcing FOISA. Perth and Kinross Council are obliged to review the scheme from time to time.

The purpose of the scheme is to provide you with details of the range of information that we routinely publish. The scheme also provides details of how you can access this information, and tells you whether it is available free, or if there is a charge for the information.

In adopting (or reviewing) our publication scheme, we are required to have regard to the public interest in allowing public access to the information we hold on:

- the services we provide, the costs of those services and the standards attained by those services;
- the facts or analyses which form the basis of the decisions we make; and
- the publication of the reasons for the decisions we make.

In preparing to meet our obligations under FOISA, including drawing up this publication scheme, we have been mindful of the value of openness and transparency.

Alongside FOISA, the Environmental Information (Scotland) Regulations 2004 (the EIRs) provide a separate right of access to environmental information that we hold. This publication scheme also contains details of the environmental information that we routinely make available.

Where information is not published under this scheme, you can request it from us under FOISA or, in the case of environmental information, the EIRs. For further information on accessing information not covered by this scheme, refer to *Section 11 – How to access information not available under the scheme*.

2. ABOUT PERTH AND KINROSS COUNCIL

Decision Making Structure

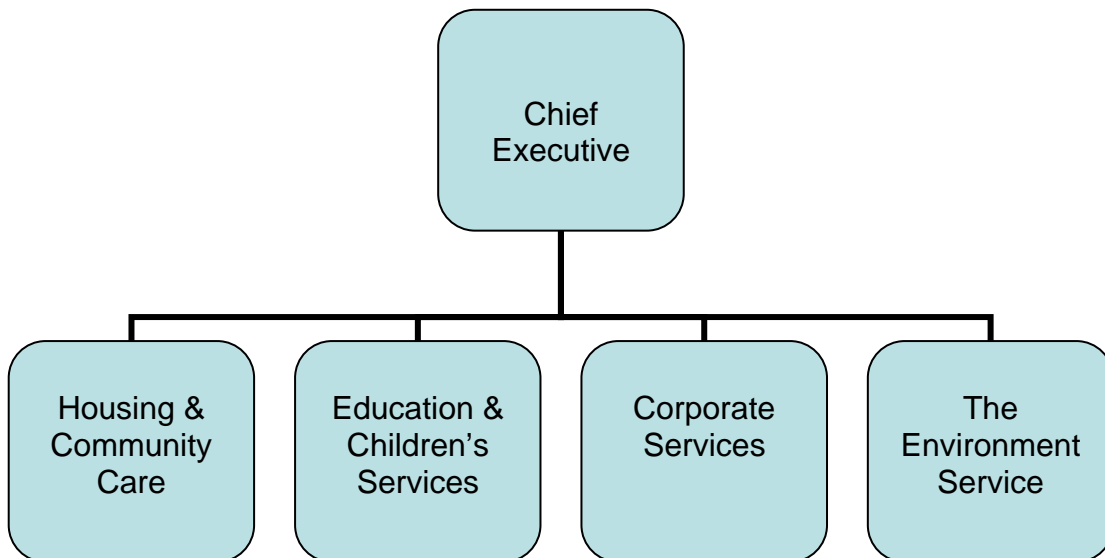

Perth and Kinross Council comprises 41 elected members covering 12 wards. As at February 2009, the current political make-up of the Council is 18 Scottish National Party, 12 Conservative, 7 Liberal Democrat, 3 Labour and 1 Independent Members. The Council has 9 Standing Committees responsible for decision making, and more information is available from:

<http://www.pkc.gov.uk/Council+and+government/Councillors+elections+and+democracy/Minutes+agendas+and+reports/Minutes+agendas+and+reports.htm>

There are also 9 Common Good Fund Committees.

Operational Structure

The Council's operational structure is detailed below:

Performance Reporting

The Council aims to achieve a significant, measurable and demonstrable improvement in the quality of life of its citizens by delivering or facilitating excellent, customer-focussed services. The Council is committed to providing members of the public with information on its performance to enable it to determine how well their Council is performing. In 2008, the Council signed up to its first Single Outcome Agreement with the Scottish Government. This agreement, which will be refreshed and published annually, explicitly sets out the outcomes which the Council is seeking to achieve with its community planning partners. The Council has to make an annual report to the Government on its progress towards these outcomes.

Other examples of service and financial performance information which will help people determine how well their Council is serving them include: statutory public performance reporting (for example, school inspections), community plans, external

audit reports and customer feedback surveys. We are committed to publishing as much information as possible, and information on performance reporting is available under Information Class 1.13 or can be found at:

<http://www.pkc.gov.uk/Council+and+government/Council+information+performance+and+statistics/Performance/PKC+Performs/PKC+Performs.htm>

Associated Organisations

Some local government activities are delivered by organisations associated with the Council. Some of these organisations are wholly owned by Perth and Kinross Council, or are separate public bodies which are governed by one or more council. These bodies are also covered by FOISA and must adopt their own publication scheme.

Police and fire services are run by joint boards which include representatives from Perth and Kinross Council, Dundee City Council and Angus Council. Each joint board has its own publication scheme, as does the Chief Constable of Tayside Police, and can be accessed using the links or contact details below:

3. PREPARING THE PUBLICATION SCHEME

Structure of the Publication Scheme

This publication scheme is an adoption of a model scheme developed **by** Scottish Local Authorities **for** Scottish Local Authorities. The model scheme sets a standard of excellence in making published information available. By adopting the model, Perth and Kinross Council has signed up to this standard.

The model scheme was based on a generic template provided by the Scottish Information Commissioner and subsequently developed by local authority representatives to reflect the huge range of information published by Scottish Councils, and meet the requirements of FOISA and the Scottish Information Commissioner. It also includes a standard scheme for classifying information, based on the Scottish Navigation List (SNL), which was developed on behalf of all Scottish local authorities, and launched in March 2007 (see Section 13 for more on SNL).

The text and classification scheme have been supplemented, where appropriate, by the addition of local details relevant to Perth and Kinross Council. This may mean, for example, the inclusion of specific information about the Council and how it works, local Council contact details, or reference/links to particular local documents. It will also indicate where certain information described in the classes is NOT published by Perth and Kinross Council or an indication that a particular class of information is not relevant to the Perth and Kinross Council.

When preparing or reviewing our publication scheme, we are obliged by FOISA to have due regard to the public interest in providing access to the information that we hold which relates to:

- the services we provide;
- the costs of those services;
- the standard of those services;
- the facts and analyses that inform the important decisions we take; and
- the reasoning that informs our decisions

Consultation

The group of local authorities who developed this model consulted widely to ensure it would be fit for purpose. The consultation exercise canvassed views from:

- The Improvement Service
- All 32 local authorities in Scotland
- ASLAWG (Archivists of Scottish Local Authorities Working Group)
- The Records Management Society of Scotland
- The Scottish Government

4. ACCESSING INFORMATION UNDER THE SCHEME

Information available under our publication scheme will normally be available through the routes described below. *Section 13 – Classes of Information* provides more details on the information available under the scheme, along with additional guidance, where relevant, on how the information falling within each 'class' may be accessed.

Online:

Most information listed in our publication scheme is available to download from our website.

Both this publication scheme and Perth and Kinross Council's website are based on the Scottish Navigation List, and are classified in a similar way – this should make it easier for scheme users to locate the information described in classes, where it is available online. For more information on SNL see section 13: classes of information.

A hyperlink within the Information Class column in Section 13: Classes of Information will direct you to the relevant page or document.

5. INFORMATION THAT WE MAY NOT PROVIDE

All information covered by our publication scheme is set out in Section 13, which describes the classes of information which are published by the Council. All information covered by our publication scheme can either be accessed through our website, or will be provided promptly following receipt of your request.

However, sometimes we may not be able to provide certain information which is described in the scheme. This could be for two reasons.

We do not have it or publish it

Because this publication scheme is based on a model scheme, the class structure covers every possible type of information a council might publish. Under law, a model has to be adopted in its entirety, and Perth and Kinross Council may not have or publish every type of information covered by every class description. Where this is the case, we will indicate this in the 'notes' section and, if relevant, explain why (see Section 13 for more information about this). If we have the information but do not publish it via this publication scheme, you still have a right to request access to it - see section 11 for advice.

Information is exempt from disclosure

Our aim in maintaining this publication scheme is to be as open as possible. You should note, however, that there may be circumstances where information will be withheld from one of the classes of information listed in Section 13. This may be an entire document, or just parts of a document (for example, minutes of meetings might be published, but with personal information 'blacked out'). Information will only be withheld, however, where FOISA (or, in the case of environmental information, the Environmental Information (Scotland) Regulations 2004) expressly permits it.

Information may be withheld, for example, where its disclosure would breach the law of confidentiality, harm an organisation's commercial interests, or endanger the protection of the environment. Information may also be withheld if it is someone's personal information and its release would breach data protection legislation.

Whenever information is withheld we will inform you of this, and will set out why that information cannot be released. Even where information is withheld it may, in many cases, be possible to provide copies with the withheld information edited out.

If you wish to complain about any information which has been withheld from you, please refer to *Section 10 – Complaints*.

6. OUR CHARGING POLICY

Unless a charge is otherwise indicated in *Section 13 – Classes of Information*, all information contained within our scheme is available from us free of charge where it can be downloaded from our website or where it can be sent to you electronically by email.

Each class of information described in Section 13 will clearly show if a charge may apply to information within that class. Unless otherwise stated in the 'Charges' column in section 13, the charges which apply will be based on the charging policy set out below. In the event that a payment is required for the information you want, you will be advised of the charge and how it has been calculated. Information will not be provided to you until payment has been received.

We reserve the right to impose charges for providing information in paper copy or computer disc / alternative formats. Perth and Kinross Council is mindful of its obligations under equality and anti-discrimination legislation when setting charges for alternative formats. Charges will reflect the actual costs of reproduction and postage to the authority, as set out below.

Reproduction costs	
Black and white copy	10p per A4 sheet
Colour copy	30p per A4 sheet
Alternative formats	
Computer discs	£1 per CD-Rom / DVD
Postage	
Charged at the cost to the Council of sending the information by first class post	

There are a small number of pre-printed publications for which Perth and Kinross Council makes a charge. These documents include the Structure Plan and Local Plans.

These publications will be charged according to how much it actually cost the Council to have them professionally printed.

For example, if Perth and Kinross Council has produced a formal report, and it costs us £500 to print a stock of 100 reports, then the actual printing cost paid by the Council is £5 per report. We therefore reserve the right to charge you up to £5 each for a copy of the report – plus actual postage costs, as charged by the Royal Mail – but no more than this.

Please note that, if you are interested in a large printed document, we can provide you with photocopies of selected relevant pages rather than charge you for a full printed copy of the document. The photocopying charges that would apply are as set out in the table above. Our employees can advise you.

If we make any charges for documents within our information classes which do not comply with this charging policy, these will be approved on a case by case basis by the Scottish Information Commissioner, and the value of the charge will be listed

individually in the column entitled 'Charges' along with the details of the specific charges.

7. OUR COPYRIGHT POLICY

Perth and Kinross Council holds the copyright for the vast majority of information in this publication scheme. All of this information can be copied or reproduced (but not re-used - see below) without our formal permission, provided it is copied or reproduced accurately, is not used in a misleading context, and provided that the source of the material is identified.

The publication scheme may however contain information where the copyright holder is not Perth and Kinross Council. In most cases the copyright holder will be obvious from the documents. In cases where the copyright is unclear, however, it is the responsibility of the person accessing the information to locate and seek the permission of the copyright holder before reproducing the material or in any other way breaching the rights of the copyright holder.

Information about Crown copyright material is available on the website of the Queens Printer for Scotland at www.oqps.gov.uk. We can provide you with a copy of this information if you do not have internet access.

Re-Use of Public Sector Information

Access to the information does not mean that copyright has been waived, nor does it give the recipient the right to re-use the information for a commercial purpose. If you intend to re-use information obtained from the scheme, and you are unsure whether you have the right to do so, you are advised to make a request to Perth and Kinross Council to re-use the information. Your request will be considered under the Re-Use of Public Sector Information Regulations 2005 (RPSIs) for which a charge may be imposed. In the event that a charge is payable, you will be advised what this is and how it has been calculated. If you would like more information on the re-use of information, please contact the Freedom of Information Team using the contact details in section 4.

Guidance on the RPSI regulations can also be found on the Office of Public Sector Information (OPSI) website at <http://www.opsi.gov.uk/advice/psi-regulations/index.htm>. We can provide you with a copy of this information if you do not have internet access.

8. RECORDS MANAGEMENT

Records are one of the Council's most vital assets. They support decision making, document activities, provide evidence of policies, decisions and transactions, and underpin the daily work of the Council.

To ensure that records are managed properly, the Council aims to conform to the Code of Practice on Records Management which has been issued by Ministers in accordance with Section 61 of the Freedom of Information (Scotland) Act 2002 and has adopted a policy on records management and preservation of archival records detailing how it intends to manage its records. This details the Council's commitment to ensuring that records are accurate and reliable, can be retrieved easily and are kept for no longer than is absolutely necessary.

10. COMPLAINTS

Complaints about the publication scheme

Our aim is to make our publication scheme as user-friendly as possible, and we hope that you can access all the information we publish with ease. If you do wish to complain about any aspect of the publication scheme, however, then please contact us, and we will try and resolve your complaint as quickly as possible. You can contact Donald Henderson, Information Compliance Manager, using the details provided in section 9.

Any complaint will be acknowledged within two working days of receipt and we will respond in full within twenty working days.

If you are still unhappy, you may contact the Scottish Information Commissioners' Office, on the details below.

Appealing to the Scottish Information Commissioner

You have legal rights to access information under this scheme and a right of appeal to the Scottish Information Commissioner if you are dissatisfied with our response. These rights will apply only to publication scheme requests made in writing* or another recordable format. If you are unhappy with our responses to your request you can ask us to review it and if you are still unhappy, you can make an appeal to the Scottish Information Commissioner.

This same three-step right of appeal applies if you make written requests for information which is not included in the publication scheme, and are unhappy with the response you receive. Section 11 provides guidance on how to request information which is not available under the scheme.

The Commissioner's website has a guide to this three step process, and he operates an enquiry service on Monday to Friday from 9:00am to 5:00pm. His office can be contacted as follows:

11. HOW TO ACCESS INFORMATION NOT AVAILABLE UNDER THE SCHEME

If the information you are seeking is not available under this publication scheme, then you may wish to request it from us. The Freedom of Information (Scotland) Act 2002 (FOISA) provides you with a general right of access to the information we hold, subject to certain exemptions.

The Environmental Information (Scotland) Regulations 2004 (EIRs) provide a right of access to the environmental information we hold, and the Data Protection Act 1998 (DPA) provides a right of access to any personal information about you that we hold. Again, these rights are subject to certain exceptions or exemptions.

Together these three pieces of legislation provide rights of access to most information held by the Council. However, there are other acts or regulations which provide a right of access to specific types of information held by local authorities, or which require registers to be publicly available. This includes information held on school pupils and social work client files. More information on this can be found on the Information Commissioner's website at:

Pupil information:

http://www.ico.gov.uk/upload/documents/library/data_protection/practical_application/access_to_personal_information_held_by_schools_iyi_v1.0_website_version3.pdf

Social work records:

http://www.ico.gov.uk/upload/documents/library/data_protection/detailed_specialist_guides/sars_social_services_v1.0_260808.pdf

Should you wish to request a copy of any information that we hold that is not available under this scheme, please write to the Freedom of Information Team using the contact details at section 4.

Charges for information which is not available under the scheme

The charges for information which **is** available under this scheme are set out under Section 6 – Our Charging Policy. If you submit a request to us for information which **is not** available under the scheme the charges will be based on the following calculations:

General information requests under FOISA:

- There will be no charge for information requests which cost us £600 or less to process.
- We are not obliged to respond to requests which will cost us over £600 to process.

Charges for environmental information under the EIRs:

The first £600 worth of information will be provided to you without charge. Where it

would cost more than £600 to provide the information to you, however, we will ask you to pay the full cost of providing the information, with no waiver for any portion of the cost.

Requests for your own personal data under the DPA:

Requests for access to your own personal data are known as 'subject access requests' and are processed in line with the provisions of the Data Protection Act 1998. These requests are subject to a fee of £10. Specific requests may also be made for access to a pupil's educational record by the parent or guardian, a social work file by the individual or a housing tenant file by the tenant. All applications should be made to the Service(s) to which your request relates.

12. OTHER INFORMATION

There is a range of other information which is available from the Council which is not 'published' via the publication scheme. It cannot be requested under the scheme, but the Council will still facilitate access to it. Reference to this information is included here to assist scheme users who might be interested in it, but it cannot be requested via the publication scheme.

Information which is publicly accessible, but is not 'published'

This covers information or material which is held by the Council but is not accessible via the publication scheme. It will not be included under the classes listed in Section 13.

Information which falls into this category would include e.g. the content of library, museum and archive collections. Some of these may be held by the Council on behalf of others.

Although these materials themselves are not described in the scheme, guides to archives and catalogues such as lists of content and guides to finding information **are** available via the publication scheme, and can be accessed in the classes found in Section 13.

A collection of Perth burgh council records is available covering a wide range of topics, dating from the 16th-19th centuries. The list describing the items in the collection is not available in the publication scheme, but is available in the Archive itself, where the actual items in the collection can also be viewed. General information about this collection and how to access it is available via the publication scheme. This is true of all collections held by Perth & Kinross Council Archive. Note however, that access to the actual material within the different collections in the Archive may not be possible due to depositor or legislative restrictions or the frail condition of the items. Information about these possible restrictions is available via the publication scheme.

Enquiries for this information should be directed to the Council Archives Service using the contact details in section 8.

Local information provided by third parties

The Council acts as a focal point for enquiries from people wanting to know more about the local area. In many cases the Council will have community information which it publishes. This information is covered in our information classes.

Sometimes, the Council may not actually have information itself, but will direct enquiries to it e.g. via links to external websites. Where this happens, the information is not available through the publication scheme.

This is a valuable information resource for local people, who expect to be able to access this information via their local Council. However, the information cannot be requested from the Council under FOISA.

Local information available from Perth and Kinross Council includes:

Local plans for the 2009 Year of Homecoming, which celebrates the 250th Anniversary of Robert Burns' birth , Perthshire Amber Music Festival, and the Etape Caledonia cycling event.

You can access this information through the Council's website at <http://www.pkc.gov.uk> or via the FOI Team. Please note that Perth and Kinross Council is not responsible for the content of external websites recommended or referred to in these publications, or in any information provided via the Council by third parties.

'Added Value' information

This covers information which is held by the Council but has to be analysed or packaged in some way in response to a specific enquiry for it. Such packaged information does not pre-exist the request and cannot be said to be 'published' – therefore it is not available via the publication scheme. The following are 4 examples of value added information.

Property Enquiry Certificates (PECs):

While the some of the 'raw' information required to compile PECs is held in publicly available registers, and is therefore published (and can therefore be requested via the publication scheme), an individual PEC requires the extraction of, analysis and packaging of data in response to a specific request. Information about PECs (e.g. how to apply for a PEC) is published, however, and can be found in Class 6: Housing or Class 9: Planning and the environment.

Enquiries for this information should be directed to:

Building Standards

Email: buildingstandards@pkc.gov.uk

Analysis of the contents of public registers

The contents of statutory public registers are available as indicated under the information classes in this scheme. However, where the Council performs any

analysis of the contents of a register in response to an enquiry, the resulting information did not pre-exist the request and is therefore not included in the publication scheme.

Enquiries for this information should be directed to the FOI Team, using the contact details in section 4.

Genealogy Services

This is an example of the processing of data from publicly available registers. The 'raw' data is held in publicly available registers and can be accessed via the publication scheme, but any specific analysis created in response to enquiries to the service is new information and is not published for the purposes of the publication scheme.

Enquiries for this information should be directed to:

Archive, library or museum and art gallery searches

The 'raw' contents of archives, libraries, museums and art galleries may be publicly accessible, although they are not included in a publication scheme. Similarly, information created as a result of any specific interrogation, analysis and packaging of material from the archives, libraries or museum collections which in effect creates new information which did not pre-exist the request, is not available via the publication scheme.

Enquiries for information from Perth and Kinross Council archive should be directed to the Council Archives Service, using the contact details in section 8. Contact details for the Heritage Service are as follows:

13. CLASSES OF INFORMATION

Under the Freedom of Information (Scotland) Act 2002, our publication scheme must say what broad types, or classes, of information the Council already publishes or intends to publish. We aim to publish as much information as possible about our work through the scheme. However, it should be noted that not all information held by the Council is covered by the scheme. Section 11 provides guidance on how to request information not covered by this scheme.

The scheme has been divided into 'categories and 'classes' to ensure the scheme is easy to understand and to enable you to find information quickly.

About the Scottish Navigation List

The categories and classes are based on a system called the 'Scottish Navigation List' (or SNL). SNL is a standard classification system, which was launched in March 2007 by Scottish local authorities, in partnership with The Improvement Service. The aim of SNL is to enable Councils to classify their activities, and information about those activities, in a way which is helpful, and makes sense, to the general public.

SNL provides a strategic framework to help Councils manage their information in a joined up way, and has a range of applications. As well as driving the structure of this publication scheme, SNL is being adopted by an increasing number of Councils as the framework for their website, and some are also using SNL to organise their internal records management systems.

SNL has four levels, and the top three levels have been used as the framework for this scheme's classes. The Council publishes, or intends to publish, information under 12 broad categories which equate to the 11 'level 1' categories of SNL plus a 'Services, Structure and Accountability' class.

Index to Classes

It should be noted that some of the classes can be found more than once, in different places in the scheme - with some appearing two or three times. It is set up this way to try and help users find information. Different people organise information differently in their minds, and so may search for it under different headings.

Perth and Kinross Council Specific Information

In the tables that follow, the categories and classes set out above have been adopted exactly as they appear in the model scheme. However the content of the columns headed 'Notes', 'Format / Availability', and 'Charges' are specific to Perth and Kinross Council.

The **Notes** column may contain the following information: -

'Same as' – this shows the section number(s) where the same class appears elsewhere in the scheme e.g. 2.15 Trading Standards – same as 8.11.

'See also' - As Councils do not work in 'silos' and many of their activities complement each other we have also introduced a 'see also' facility to show users where they might find related or similar information in other classes.

‘Key content’ – where we consider that a local document or piece of local information highlights or illustrates the class description, or is one that our experience suggests will be frequently requested, we have included it here to make it easier to find.

‘Contact’ – if there is a particular person or section to be contacted for information in a class, contact details are provided.

‘Does not apply’ – if a class does not apply, in its entirety, to Perth and Kinross Council, or the Council does not publish certain information within a class, this will be clearly explained.

The **Format / Availability** column tells you how the information can be made available to you e.g. online, paper copy, special formats. A key to the symbols appears on every page of the class descriptions.

The **Charges** column tells you whether a charge may apply for copies of some of the information in the class. If the charge is not set according to our charging policy explained in Section 6, the specific charge will be detailed in this column. You will not be charged for inspecting information in this publication scheme.
