The vehicle must comply in respects of all Acts and Regulations in force at the time the vehicle is licensed.
2. "Wheelchair accessible" (WAV) means that the wheelchair user must be able to stay seated in their wheelchair at all times and that the wheelchair will be secured while the vehicle is moving. When existing seats need to be removed or moved to enable the vehicle to become fully wheelchair accessible then the seats must be either removed entirely from the vehicle or alternatively by affixing the moved seats to the floor of the vehicle.

8. A vehicle over the age of 7 years from date of first registration will be required to undergo an inspection 6 months after the annual inspection carried out by or on behalf of the Council.

9. The vehicle inspection will be based on the current MOT standard for that vehicle as directed by VOSA. This will not replace the requirement for the vehicle to have a valid MOT.
10. Where a taximeter is fitted, this will be tested annually. Meter calibration will take place after every fare review where there is a change to fares.

14. A taxi or private hire operator will when their vehicle is damaged, report the damage to the Licensing Officer as soon as practicable and, if the taxi or private hire vehicle is roadworthy, will present it for examination within the following two working days (being days on which the testing facilities operate) after the occurrence.

As soon as repairs to the taxi or private hire vehicle have been completed, the taxi or private hire vehicle will be presented to the Council Testing Centre for re-examination. Unless the Licensing Officer confirms otherwise, the vehicle will not be used as a taxi or private hire from the date for presentation of said examination until it has been re-examined by the Council after the repairs have been completed, and passed by the Council Testing Centre as being fit for use again as a taxi or private hire.

15. If the vehicle is un-roadworthy then a Safety Suspension shall be put in place by the Licensing Officer. All licence plates and signage will be returned immediately to the Licensing Officer. The Safety Suspension shall remain in place until the vehicle is examined and passed by the Council Testing Centre as being fit for use again as a taxi or private hire, the Safety Suspension will remain in place for a maximum of 28 days.

If the Council Testing Centre issues the Taxi or private hire licence holder with a defect slip relating to the vehicle, the licence holder must complete the replacements or repairs identified in the defect slip and present the taxi or private hire car for re-examination within 14 days. The vehicle must not be used as a taxi or private hire vehicle until it is re-examined and passed by the Council Testing Centre as being fit for use again as a taxi or private hire.
