

Green Waste Recycling for your business

Everything here

can be recycled here

Why should your business recycle green waste?

Green waste can be composted to make a useful end product for use in landscaping and grounds maintenance.

Composting green waste:

- Does not incur landfill tax so you can save your business money
- Prevents the production of methane gases which contribute to climate change
- Reduces the need for landfill sites

You can recycle all types of green waste:

Yes Please

- ✓ Flowers & plants
- ✓ Grass cuttings
- ✓ Hedge trimmings
- ✓ Leaves
- ✓ Sawdust & bark
- ✓ Small twigs
- ✓ Weeds

No Thanks

- ✗ Raw or cooked food waste
- ✗ Large branches or logs
- ✗ Soil
- ✗ Stone
- ✗ Rubble
- ✗ Any other types of waste

How can your business recycle green waste?

Green waste is collected from the kerbside in a brown-lidded 360 litre bin.

The bin is marked with a $\frac{3}{4}$ fill marker to prevent over-filling which can cause damage to the bin.

For further information please contact the Perth & Kinross Council commercial waste team on: ☎ 01738 476476 ✉ recycle@pkc.gov.uk 🌐 www.pkc.gov.uk/recycling
