

Alistair MacLean - Volunteer with Community Greenspace

Alistair has been a volunteer with Greenspace since October 2012. He mainly helps out with the Flower Beds at McRosty Park in Crieff. He works up to three hours per week. During the winter months he helped to cut back some plants and shrubs. He also dug and prepared flower beds for planting. During the summer months Alistair has helped to keep the paths and walkways clear of weeds and moss. He has also been weeding and dead heading the flower beds.

Alistair says that he gets on really well with Susan and Richard from Greenspace and that they are always on hand if he needs encouragement or anything clarified. He enjoys being a volunteer as he says it gets him out the house and gives him a sense of purpose. This also gives Alistair valuable work experience and helps his existing gardening skills.

Susan Whyte (Greenspace Ranger) commented that Alistair is a valuable asset to the maintenance of McRosty Park and the Crieff Community. There is always so much to be done and we really value Alistair's input.

If you have a couple of hours to spare per week or if you are interested in becoming a volunteer contact: communitygreenspace@pkc.gov.uk
