- **Strathmore & the Glens**
(Eastern Area)

LOCAL DEVELOPMENT PLAN PROGRESS

The Perth & Kinross Adopted Local Development Plan was published in February 2014. Legislation dictates that the LDP is updated every 5 years. LDP2 is at the Proposed Plan stage. This is due to be published in Autumn 2017.

The Local Development Plan for Perth & Kinross replaces all 6 previously Adopted Local Plans for the area. Some sites in the Audit have Local Plan references from the previous Local Plans.

Proposed LDP sites were added to the Housing Land Audit in 2012 and in 2014 Adopted LDP sites updated the Audit.

See Council website for further details on the LDP:-

INTRODUCTION

- The annual Housing Land Audit provides a statement of land supply within the administrative boundary of Perth & Kinross Council. Only sites with a capacity of 5 or more units are included.
- **This Audit is the result of a survey conducted in MARCH 2016**
However a pragmatic approach is taken in completing the Final Audit. This includes some updates to the March information, taking into account the consultation exercise with Homes for Scotland, the Scottish Government Housing, Regeneration & Welfare Directorate and Scottish Water plus recent Local Development Plan progress.

Please note that from 2010 the Audit is carried out in March rather than June. This is to allow alignment of data between the constituent Local Authorities in the TAYplan Strategic Development Plan Area. The 2010 Audit covers 9 months (from July to March) rather than 12.

- The information is presented in summary form at Council level with individual site detail at Planning Area level (broken down by main settlements and landward area). This accords with 'Schedule 1' contained within the Perth & Kinross Structure Plan in place at the time.

The **Invergowrie/Longforgran** area has been treated separately as it forms part of the Dundee Housing Market Area. From **2016** the TAYplan Greater Dundee Housing Market Area (GDHMA) replaces the Dundee Housing Market Area (DHMA). The GDHMA also covers the Inchtute/Abernyte area. See map pages for more detail.

- The Housing Land Audit provides important housing supply information for the TAYplan Strategic Development Plan and for monitoring and reviewing the plan in the future.
The 2003 Structure Plan for Perth & Kinross was replaced by the TAYplan Strategic Development Plan on 8th June 2012. TAYplan is being reviewed and a Proposed Plan was submitted to Scottish Ministers on 7th June 2016.

See www.tayplan-sdpa.gov.uk/

- In June 2014 the Scottish Government published the Scottish Planning Policy document which includes and combines previous advice and guidance on housing land. This document influences the preparation and consultation process associated with the Housing Land Audit as does PAN 2/2010 on Affordable Housing and Housing Land Audits.

GENERAL PRINCIPLES

1. General Information Recorded

- Sites are divided into Effective and Non-Effective (see Glossary).
- Sites are Private (PV), Housing Association (HA), Local Authority (LA) or any combination of these.
- The site reference is noted followed by the name of the site then of the developer or applicant.
- The site may be under construction, have planning consent, or be identified in an adopted or finalised Local Plan or a Proposed or Adopted Local Development Plan. Where sites have 'consent' the type is noted - detailed (full) or outline (in principle).
- An indication is given of the latest approval date for the site. In the case of Local Plan sites this relates to publication dates. The Local Plan or Local Development Plan reference is also noted. If a site has no entry in the LP ref/year column, it is a windfall site.
- The site capacity, number of dwelling units built and number of dwelling units left to build, is recorded for each site.

2. Programming

- Housing sites have been monitored since 1979.
- The potential yield figures take due account of past trends and completions, anticipated starts and comments from Homes for Scotland, Scottish Water and the Scottish Government Housing, Regeneration & Welfare Directorate.
- Emphasis is made however that the likely yields are only **indicative** and will undoubtedly vary from the actual yield.

3. Completions

- The Audit sets out the number of units recorded as complete on sites of 5 or more houses by tenure & by Local Plan Area. Since 1995 completions on sites less than 5 have also been monitored by Local Plan Area.
- From June 1980 to June 1995 results cover Perth and Kinross District. From June 1996 to June 2009 results cover Perth and Kinross Council and include the Invergowrie/ Longforgan area which is monitored separately to allow continued comparison.
- **March 2010 results are for 9 months only and run from July 2009 to March 2010.** They then return to an annual count, based at March, from 2011 onwards at Perth & Kinross Council level.

4. Frequency

- This monitoring exercise is conducted annually.

5. Consultation

- This Housing Land Audit is subject to consultation with the Scottish Government Housing, Regeneration & Welfare Directorate, Homes for Scotland and Scottish Water.
In consulting with the house builders the Council's aim is to reduce any disagreement between Homes for Scotland and itself, as far as is possible, on what is realistically achievable in terms of the supply of land for housing development.

CODES

<i>Appr Date</i>	Last known planning approval date, or publication date of the Local Plan or Local Development Plan.	
<i>Area</i>	Site area in hectares (site areas in most cases are approximate & are only intended as a guide)	
<i>Built</i>	Number of units built on site at latest March survey	
<i>Capacity</i>	Total number of units to be built on site	
<i>Constraints</i>	Con = contamination Inf = infrastructure Lan = land use Mar = marketability Def = deficit funding not committed PLI = awaiting results of Public Local Inquiry	Own = ownership Phy = physical (on site) Pro = programming
<i>Developer</i>	Name of the last known or anticipated developer (or applicant)	
<i>LP ref</i>	If applicable, the reference used in the appropriate Local Plan or Local Development Plan DB = Development Brief, SHC = Significant Housing Consent, OP = Opportunity Site, MU = Mixed Use If this column is blank, the site is a windfall site	
<i>Site ref</i>	Unique reference for each housing site	
<i>Status</i>	UC = Under Construction D = Detailed or Full consent (expiry can be 5 or 3 years) O = Outline or In Principle consent (From 2012 Audit, extended Outline expiry dates can occur via new planning application to vary consent) ALP = Adopted Local Plan E = Expired consent but still a Local Plan site or awaiting decision on new planning application. PLDP = Proposed Local Development Plan ALDP = Adopted Local Development Plan	
<i>Tenure</i> (used as sort order)	PV = Private LA = Local Authority HA = Housing Association & other low cost if known Combinations of the above are also applied here	
<i>To build</i>	Number of units left to build or with potential to build at March Survey	

NOTE: Sites may appear to have expired but the Planning Consent may have been initiated (in perpetuity) by an access construction, a single foundation, drainage, a demolished building etc.

MEETING THE HOUSING LAND REQUIREMENT

The Council is required to identify a specified amount of land for housing in each of its Housing Market Areas. This 'housing land requirement' is set by the Strategic Development Plan (TAYplan). The Council is required by Scottish Planning Policy to have at least 5 years effective housing land supply. Effective housing sites are those which are, or will become, free of constraints and can reasonably be expected to be available for development with the Local Development Plan period. The Adopted Local Development Plan considers the period to 2024.

The table below considers the housing land requirement against the housing land supply for each of the 5 year periods to 2025. This demonstrates that there is currently a surplus in supply (shown in brackets) in all of the Housing Market Areas for each of the effective periods with the exception of Strathmore and the Glens.

The shortfall in the Strathmore & the Glens Housing Market Area in the first 5 year period is primarily due to one large site falling out of the supply.

Housing Market Area	5 year Housing Land Requirement¹	5 year supply periods			
		2016/17 – 2020/21	2017/18- 2021/22	2018/19- 2022/23	2019/20- 2023/24
Highland	300	404 (+104)	446 (+146)	463 (+163)	398 (+98)
Kinross	284	471 (+187)	545 (+261)	563 (+279)	484 (+200)
Perth	2,327	2,589 (+262)	3,057 (+730)	3,387 (+1,060)	3,481 (+1,154)
Strathearn	585	820 (+235)	854 (+269)	827 (+242)	694 (+109)
Strathmore & the Glens	540	466 (-74)	539 (-1)	643 (+103)	637 (+97)
Greater Dundee	0 ²	30	33	32	26
PKC	4,036	4,780 (+744)	5,474 (+1,438)	5,915 (+1,879)	5,720 (+1,684)

Source: TAYplan 2012 and PKC Housing Land Audit 2016

Work is underway on Proposed Local Development Plan 2 which is due to be published by late summer 2017. By this time TAYplan 2, with the revised Housing Land Targets, will be approved. In light of this, it is considered more appropriate to continue with a plan-led approach through the next Local Development Plan rather

¹ The Housing Land Requirement set out in the Adopted TAYplan is adjusted to include an assumption that 10% of the requirement in all HMAs will be met on windfall sites; 15% in the Highland HMA will be met on small sites; and 10% in the Kinross HMA will be reallocated to the Perth HMA.

² The Adopted TAYplan does not identify a specific housing land requirement for that part of the Perth HMA which falls within the Greater Dundee HMA.

than allowing ad hoc permissions in advance of the publication of the Proposed Plan in an effort to address this shortfall. Later 5 year supply periods show a surplus in supply and there is nothing in policy terms to prevent these allocated sites from coming forward sooner to help to address the shorter term shortfall.

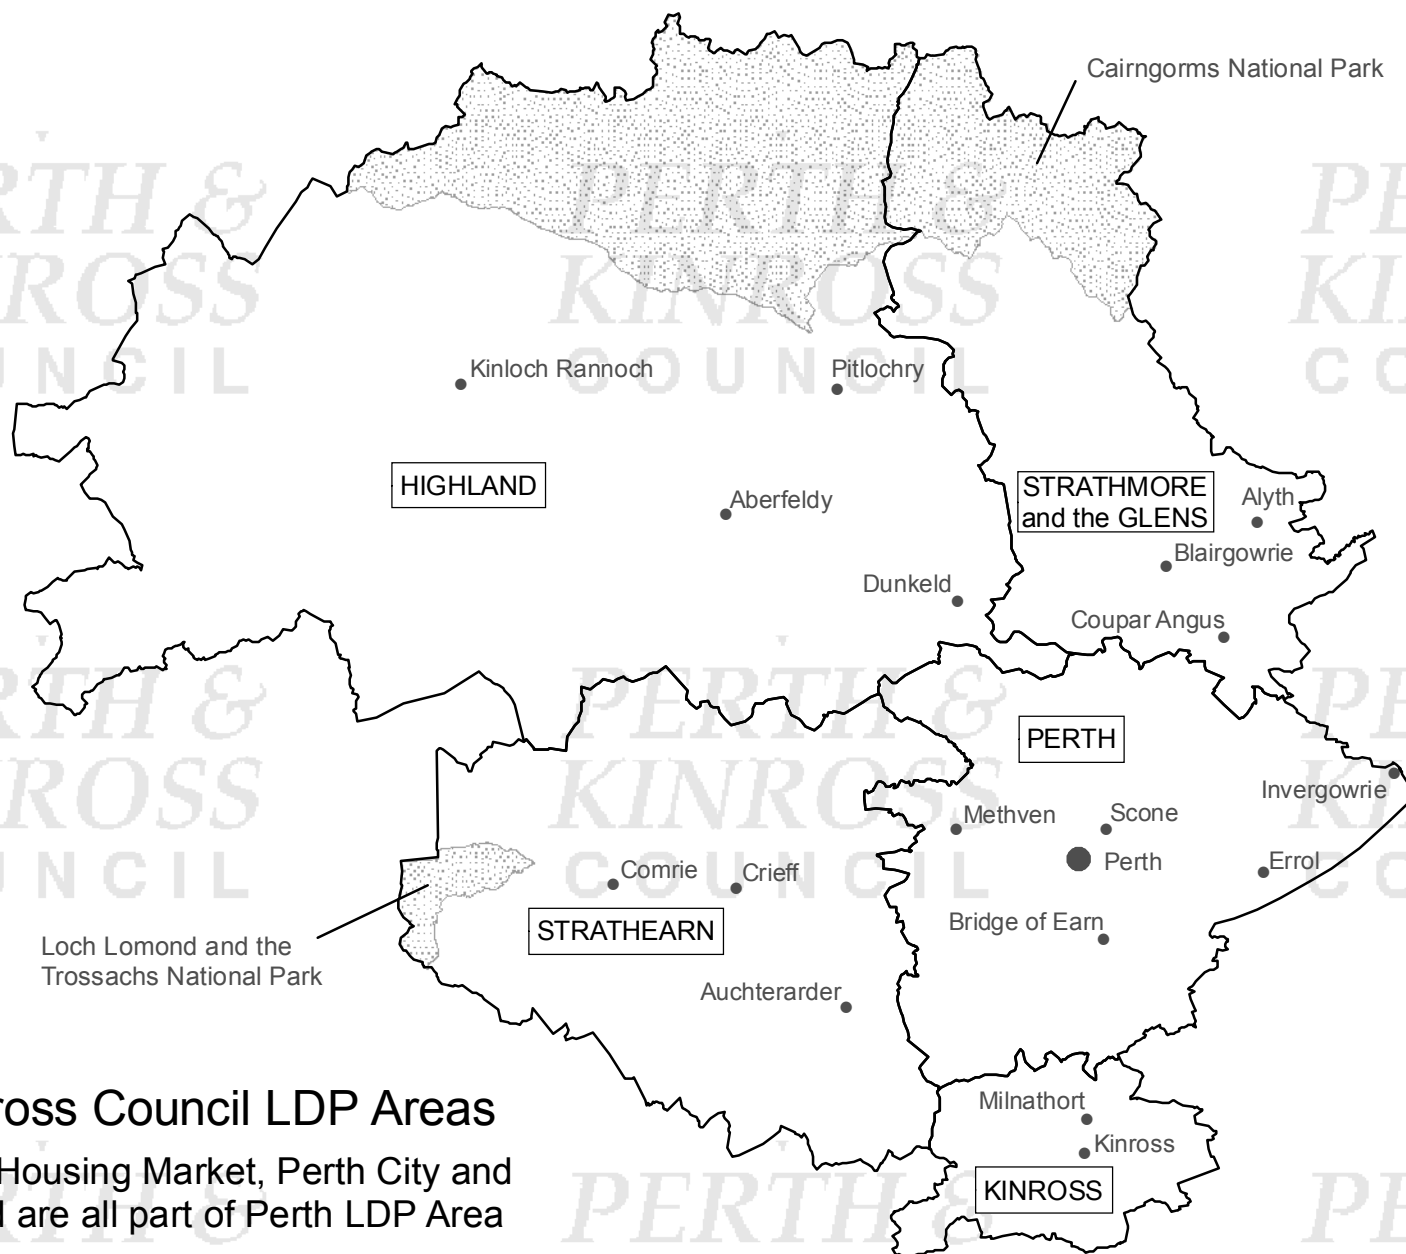

COMPLETIONS ON WINDFALL SITES

Completions data from the last 5 years Housing Land Audits have shown that in the period to 2016 windfall sites of 5+ houses have on average accounted for over half of all housing completions.

It is expected that the number of windfall sites coming forward will reduce given that we have an up-to-date Local Development Plan which identifies a range of new sites. However, it is considered reasonable to assume that windfall sites will continue to make an important contribution in meeting the housing land requirement during the lifetime of the next Local Development Plan.

Housing Market Area	Completions (sites of 5 or more)					
	2012	2013	2014	2015	2016	2012-16
Highland	0	17	25	12	11	65

All supply details in this table total those units not yet built at the March date of the Audit.

The ESTABLISHED SUPPLY total includes sites that are constrained and therefore non-effective.

The EFFECTIVE SUPPLY total aggregates all programming. Only effective sites are programmed.

The 5 YEAR EFFECTIVE total aggregates programming for the first 5 years only.

The 7 YEAR EFFECTIVE total aggregates programming for the first 7 years only.

The 12 YEAR EFFECTIVE total aggregates programming for the first 12 years only.

The NUMBERS CONSTRAINED total is the difference between Established and Effective supply.

PERTH AND KINROSS COUNCIL

The ESTABLISHED SUPPLY total includes sites that are constrained and therefore non-effective

The EFFECTIVE SUPPLY total aggregates all programming

The 5 YEAR EFFECTIVE total aggregates programming for the first 5 years only

NOTE ON ADJUSTED TOTAL

In assessing the build rates for individual sites the Council has sought to make a realistic appraisal of the potential output. In the current economic climate, coupled with the expected recovery speed, it is unlikely that all of these potential sites will come forward simultaneously. Therefore, whilst individually the projected build rates may reflect a site's potential, the Council wide total is likely to be an overestimate. Accordingly this year an adjusted total has been provided, as an additional line in the HLA, to reflect the best estimate of likely delivered units for each of the next 12 years. These adjusted figures have been informed by the most recent Audits and assume a steady recovery rate to TAYplan projected build rates over the period to 2023. It should however be emphasised that in the event of a more rapid recovery the identified sites have not only the potential to deliver the number of houses identified in the HLA but in many cases they could deliver higher numbers.

% Annual Housing Completions by Tenure

Sites of 5 or more housing units only

Note: 2010 data is for 9 months instead of 12 months

In 2010, for the first time since records began, the percentage of Housing Association/affordable completions (66%) outnumbered those by private developers (34%). This compares to 14% (HA) and 86% (private) in 2006.

The % built on private sites since 2012 has increased (72% at 2016) at the same time as that on HA/LA sites has decreased (28% in 2016). At 2016 total numbers of private completions are noticeably higher than recent years.

% Annual Housing Completions by Site Size Category

All housing units

Note: 2010 data is for 9 months instead of 12 months

From 2009 to 2015 completions on small sites have not reduced in the same way that those on sites of 5 or more have. Sites of less than 5 houses have contributed in a more significant way to the effective supply between those years than normal. This changed only briefly in 2011. At 2016 this has changed again to reflect a more expected pattern as seen pre 2009.

The small sites in 2010 made up 26% of total completions compared to 10% in 2008 and 17% in 2016. Numbers were very stable if slightly below pre 2008 levels. Sites of 5 or more are now recovering from the economic downturn.

Perth & Kinross Council Annual House Completions (5+ sites)

NOTE: 2010 data covers 9 months not 12 so is lower than it should be.

1. The 2008 economic downturn caused the number of private houses built to fall dramatically in the following years.
2. HA/LA completions were relatively stable depending on funding.
3. Total completions for PKC had fallen to levels comparable to the early 1980's when 278 were built in 1983 but now show definite signs of recovery.

Perth City Annual House Completions (5+ sites)

NOTE: 2010 data covers 9 months not 12 so is lower than it should be.

1. At 2010, 2012 and 2013 no Private completions were recorded in Perth City.
2. In 2014 total completions for Perth City fell to levels not seen since the early 1980's but have fully recovered over the past 2 years.

Perth Planning Area Annual House Completions (5+ sites)

NOTE: 2010 data covers 9 months not 12 so is lower than it should be.

1. Completions in the Perth area were at their lowest since records began in 2014. There are now definite signs of recovery in both the City and landward areas.
2. Perth Landward produced relatively normal levels of completions in 2011-2013.

Planning Areas Annual House Completions - excluding Perth (5+ sites)

NOTE: 2010 data covers 9 months not 12 so is lower than it should be.

1. Patterns vary depending on the geographic area with Strathearn steadily increasing due to several sites in Auchterarder. Strathmore and Highland show a falling trend.
2. The high number of completions in Highland in 2011 is due to a large number of flats completed in Pitlochry.

Planning Areas Annual House Completions - SMALL SITES

NOTE: 2010 data covers 9 months not 12 so is lower than it should be.

- At 2016 both Strathearn and Perth completions are at more normal levels. Strathmore, Highland and Kinross are still lower but steady.

Completions in Planning Areas since 2011 Census (5+ sites)

2011-2016	Total units complete	Average units per year	% of PKC total
Perth PA	1054	176	51
Strathearn PA	410	68	20
Strathmore PA	219	37	10
Kinross PA	201	34	10
Highland PA	181	30	9
PKC	2065	344	100

At 51% Perth Area produces the highest number of houses built within PKC.

Completions in Main Settlements since 2011 Census (5+ sites)

2011-2016	Total units complete	Average units per year	% of Planning Area total
Perth City	394	66	37

NOTES: 1. Completion certificates were used to determine numbers on sites < 5 units. June survey totals have been added to the small site totals. 2. *2010 covers a nine month period (July to March) and is therefore not counted in the average figures. 3. Milnathort was recorded as a separate settlement from June 1996 on sites > 5.

SUMMARY: Over the 15 years 17% of total housing completions in Perth & Kinross have been on small sites. Perth City at 3% has the lowest contribution from small sites with Strathmore Landward the highest at 53%. 34% of total completions have been in Perth City, with 26% in other main towns and 40% in landward areas.

Total number of sites = 19

NOTE: Sites are added to the Housing Land Audit if they are windfalls, if they are new Proposed or Adopted Local Development Plan sites or if they are a split of a larger existing site. A previous existing site that has been removed from the Audit may also be reintroduced in a later year.

HOUSING SITES IN NATIONAL PARKS AT MARCH 2016

LOCATION	NAME	SITE REF	DEVELOPER	CAPACITY	STATUS
Loch Lomond and Trossachs NP					
St Fillans	Glentarken Park (awaiting renewal)	STL081	R & P Salmond	7	D
St Fillans	Station Road	STL079	Private	16	ALP

Total number of sites = 2

NOTE: National Park sites are part of the Housing Market Areas within Perth and Kinross. Cairngorms National Park sites are therefore included in the Highland Local Plan area and Loch Lomond and the Trossachs National Park sites are included in the Strathearn Local Plan area for the purposes of this Audit.

GLOSSARY

The definition of terms used in the Housing Land Audit is based on the glossary contained in Scottish Planning Policy SPP 3 (Revised 2008).

- **Audit:** An annual monitoring process, with the objective of identifying after discussion with relevant parties, those sites within the established supply which are expected to be effective within the period under consideration.
- **Constrained Housing Land Supply:** Includes that part of the established land supply that at the time of any audit is assessed as being **non-effective**.
- **Effective Housing Land Supply:** The part of the established land supply that is free or expected to be free of development constraints in the period under consideration and will therefore be available for the construction of houses.
- **Established Housing Land Supply:** Includes both effective & non-effective sites. Includes the remaining capacity of sites under construction, sites with planning consent, sites in adopted Local Development Plans, and where appropriate other buildings and land with agreed potential for housing development.
- **Sector:** Housing provision is traditionally divided into public and private sector. The public sector is defined to include provision by housing associations, local authorities & other social housing providers for rent. The private sector is defined to include housing for sale or rent provided by private developers or other commercial organisations. The term “owner occupied sector” excludes the private rented element.
- **Windfall Sites:** Sites that receive planning permission and are not previously identified as land for housing. They usually refer to reuse or redevelopment of land and are therefore brownfield sites. In Perth & Kinross however some windfall sites are on greenfield land.

In previous years, housing associations were defined as part of the private sector. Under the superceded revised PAN 38 & revised SPP 3 this changed.

CRITERIA FOR ASSESSING EFFECTIVENESS

The criteria used are those in SPP 3 (Revised 2008). PAN 2/2010 includes a similar list.

The criteria are:-

- **Contamination:** Previous use has not resulted in contamination of the site or, if it has, commitments have been made which would allow it to be developed to provide marketable housing.
- **Deficit Funding:** Any public funding required to make residential development economically viable is committed by the public bodies concerned.
- **Infrastructure:** The site is either free of infrastructure constraints or any required infrastructure can be provided realistically by the developer or another party to allow development.
- **Land Use:** Housing is the sole preferred land use of the land in planning terms or if housing is one of a range of possible uses other factors such as ownership and marketability point to housing being a realistic option.
- **Marketability:** The site, or a relevant part of it, can be developed in the period under consideration.
- **Ownership:** The site is in the ownership or control of a party which can be expected to develop it or to release it for development. Where a site is in the ownership of a local authority or other public body, it should be included only where it is part of a programme of land disposal.
- **Physical:** The site or relevant part of it is free from constraints related to slope, aspect, flood risk, ground stability or vehicular access which would preclude its development. Where there is a solid commitment to removing the constraints in time to allow development in the period under consideration, or the market is strong enough to fund the remedial work required, the site should be included in the effective land supply.
- **Programming:** An indication of the expected annual completions on each site taking account of lead-in times, the capacity of the builder to develop the site, and the capacity of the local housing market.
