

## Children's Hearings Multi-Agency Online Learning Resource

The Children's Hearings Improvement Partnership (CHIP) has created a new online resource to help everyone involved in the Children's Hearings System understand more clearly the processes in the system and who does what and when.

The resource is for everyone who has a key role to play in the Children's Hearing System – Practitioners, Young People and Families.

Current areas within the resource include:

- Introduction to the System
- Roles and Responsibilities

The site will grow over time and be updated as new information becomes available. The next step is publishing information about the Hearing Process.

### HOW TO ACCESS THE RESOURCE:

Visit the Website:
