

Example of participation request

Perth and Kinross Environment Service's Recycling Centre in Aberfeldy is open four days a week. A community body may approach Perth & Kinross Council's Environment Service (TES) or Perth & Kinross Community Planning Partnership (CPP) with a proposal to run the service 5 days a week together with a community engagement plan (in order to get more people included in a recycling drive and improve their local environment). After considerations and in conjunction with TES/CPP, the community body would help design and then deliver this new process in order to seek the improved outcomes they believe can be achieved.
