

# Mental Health & Wellbeing Nurse

Ask staff at your GP surgery about me!

Your Mental Health & Wellbeing needs attention, just like your Physical Health & Wellbeing. Whether it's relationship or money worries, caring for someone or do you just need someone to talk to? You can ask to see Kirsty if you are registered with **Perth City Medical Centre, Drumhar Yellow or Mauve Practice or Glover Street Kings or Victoria Practice.**

Kirsty is a nurse in these surgeries, there specifically to support you with Health & Wellbeing concerns that may be affecting your mental health. After chatting with you she may be able to offer suggestions on ways to improve your wellbeing, which can be affected by lots of different things! Some examples of things Kirsty commonly helps with are stress, anxiety and depression – but not just these things. If you are not currently receiving support from any other professionals, ask for more information about a 30 minute appointment from reception staff at your GP surgery.

**Occupational:** Is about how you occupy your time or simply liking what you do every day

**Financial:** Is about effectively managing your economic life

**Physical:** Is about having good health and enough energy to get things done daily

**Environmental:** Is about the sense of engagement you have with the area where you

**Social:** Is about having strong relationships and love in your life

“These elements are the currency of a life that matters. They do not include every nuance of what's important in life, but they do represent five broad categories that are essential to most people.”
