

## ONLINE REMINISCENCE LINKS FOR HOME SUPPORT

Sports Heritage Scotland (Memories) is a reminiscence partnership involving five national sports. During such an unprecedented time, a team of sports historians, project volunteers, museum professionals and health professionals are working together to support people who are experiencing social isolation. Through this online network, reminiscence is continuing to be supported, prompting conversations and discussions in households across Scotland. Access to thousands of images and a variety of other resources can be found by visiting the following Facebook sites...
