

Managed for Wildlife Trial 2023 Volunteer Survey Record Sheet

Please complete the survey of a trial site near you to help show whether the trial areas have resulted in more wildlife and biodiversity compared to the mown areas nearby. You can also comment on the overall look of the site. For more information and site details, please see the Survey Guidance and the webpage www.pkc.gov.uk/wildlife.

The survey form can either be completed online at consult.pkc.gov.uk/communities/b0b4e417/ or via this physical form which once complete should be emailed along with photos to DAnderson@pkc.gov.uk.

Method: Taking your trial area map, this survey record sheet and camera/phone, walk through the area or sit and watch and record what you see. After carrying out your survey fill in the yellow section for the trial area and the green section for the mowed area nearby. Please take at least two photos for each survey sheet: one of the general trial site and close-up photos of the grass/flowers/bees etc.

Trial site name:	Date & time:		
Recorder name(s):	Weather conditions (please circle)	sunny	dry
		overcast	wet
Characteristics of trial area (please circle)	under trees	partial shade	open grass
General appearance of trial area when compared with wider site (circle any which apply or add comments)	More attractive <input type="checkbox"/>	Less attractive <input type="checkbox"/>
