

Perth and Kinross Health and Social Care Integration Scheme

2 September 2022

This Integration Scheme is to be used in conjunction with the Public Bodies (Joint Working) (Integration Scheme) (Scotland) Regulations 2014

These regulations can be found at <http://www.scotland.gov.uk>

1. Establishment

The Public Bodies (Joint Working) (Scotland) Act 2014 (the “Act”) requires NHS Boards and Local Authorities to integrate planning for, and delivery of, certain adult health and social care services. They can also choose to integrate planning and delivery of other services, additional adult health and social care services and children’s health and social care services, beyond the minimum prescribed by the Scottish Ministers. The Act requires them to jointly prepare an Integration Scheme setting out how this is to be achieved.

The first Perth and Kinross Integration Scheme established a “body corporate” arrangement, as set out in s1(4)(a) of the Act. This Scheme was produced in 2022 following a review in 2020/21. It continues to provide for a body corporate model for the integration of health and social care in Perth and Kinross and confirms the detail of how Tayside NHS Board and Perth & Kinross Council will integrate relevant services. The corporate body will be known as Perth and Kinross Integration Joint Board (“IJB”). To give effect to the single operational management of Integrated Services by the Chief Officer, the parties agree that the integrated operating unit will be known as Perth and Kinross Health and Social Care Partnership.

This agreement covers the health and wellbeing of all adults including older people. It includes children’s services as noted in Annex 1 of this Integration Scheme and takes account of the needs of children at times of transition to adulthood in the context of ‘whole family’ approaches. Robust working arrangements will be put in place to ensure effective joint working with Children’s Services in both these cases.

2. Our Shared Vision for Integration

NHS Tayside and Perth & Kinross Council are the parties in this Integration Scheme. We recognise that the main purpose of integration is:

- To improve the wellbeing of people who use health and social care services, in particular those whose needs are complex, and which require support from health and social care at the same time;
- To improve the wellbeing of those for whom it is necessary to provide timely and appropriate support in order to keep them well;
- To promote informed self-management and preventative support to avoid crisis or ill health; and
- To jointly deliver on the national health and wellbeing outcomes.

Our shared vision for integration between NHS Tayside and Perth & Kinross Council is for a confident and ambitious Integration Joint Board which supports people to achieve better outcomes and experience fewer inequalities, where voices are heard and people are supported to enjoy full and positive lives in the community.

We aim to deliver success in integration where:

- People experience improved health and wellbeing;
- Integrated Services provide holistic care focused on outcomes;
- Pathways between health, social work and social care services become seamless;
- Inequalities are reduced;
- Shared resources are deployed using best value principles to achieve better outcomes, maximise efficiencies from integrated care allowing public funds to go further to meet demand; and
- Good clinical, care and professional governance improves the quality of service delivery.

To achieve this, we will:

- Build on the integration delivery principles set out in the Act;
- Respect the principles of human rights, equalities, and independent living, treating people fairly;
- Ensure that staff are well informed. We will work collaboratively to embed this shared vision within staff teams, supporting and developing staff from all organisations to respond appropriately, putting people first;
- Recognise that our people are our greatest asset, and it is through their talents and ambitions that real improvement will continue to be made;
- Treat staff fairly and consistently with dignity and respect in an environment where diversity is valued;
- Provide staff with a continually improving and safe working environment, promoting the health and wellbeing of staff;
- Support staff to understand the importance of the communities we service and develop positive approaches to engage, listen and act;
- Involve staff in decisions;
- Support staff to learn from and build on best practice, ensuring that they are appropriately trained and developed;
- Support the delivery of the Perth and Kinross Integration Joint Board's Strategic Plan, progressing the national health and wellbeing outcomes; and
- Work together to promote integrated working by our staff and minimise unnecessary duplication.

The local vision for integration is set out in the Perth and Kinross Integration Joint Board's Strategic Plan ("the Strategic Plan"). The Perth and Kinross Integration Joint Board's Strategic Plan and progress with its delivery can be found on [Perth and Kinross HSCP web pages](#).

The Integration Joint Board will approve and provide Direction to the Parties before the start of the Integration Joint Board financial year, in the relevant year, regarding the functions that are being commissioned, how they are to be delivered and the resources to be used in delivery.
- 9.10 The process for determining the value of the resources used in 'large hospitals' to be set aside by NHS Tayside and made available to the Integration Joint Board will be determined with regard to hospital capacity that is expected to be used by the population of the Integration Joint Board and will incorporate as a minimum but not exclusively:
- Actual occupied bed days and admissions in recent years;
 - Planned changes in activity and case mix due to the effect of interventions in the Strategic Plan; and
 - Planned changes in activity and case mix due to changes in population need (i.e. demography and morbidity).
- 9.11 The value of the 'large hospital' set aside will be calculated by applying unit costs to the hospital capacity using a costing methodology to be agreed between the Parties and the Integration Joint Board.
- 9.12 On an annual basis the Large Hospital Set Aside Budget will be adjusted to reflect planned hospital capacity, as set out in the Strategic Plan. The Strategic Plan will set out any planned changes in hospital capacity, with the resource consequences determined through detailed business cases which will be reflected in the Integration Joint Board's financial plan. These business cases may include:
- The planned changes in activity and case mix due to interventions in the Strategic Plan and the projected activity and case mix changes due to changes in population need; and
 - Analysis of the impact on the affected hospital budgets, taking into account cost behaviour (i.e. fixed, semi fixed and variable costs) and timing differences (i.e., the lag between reduction in capacity and the release of resources).

- 9.13 The Parties will provide ongoing assurance through the provision of sufficient information to the Integration Joint Board that appropriate arrangements are in place to ensure best value principles are followed by the Parties in relation to services commissioned by the IJB.
- 9.14 As part of the process of preparing the Annual Accounts of the Integration Joint Board, the Chief Financial Officer will be responsible for liaising with the Parties to agree balances between the Integration Joint Board and the Parties at the end of the financial year in accordance with the respective annual accounts' timescales of the Parties. The Chief Financial Officer will also be responsible for provision of other information required by the Part to complete their annual accounts including Group Accounts.
- 9.15 The Parties will routinely make available to the Chief Finance Officer information regarding the corporate financial reporting position of their respective parent bodies. The frequency, form and content of reports will be agreed with the Chief Finance Officer.
- 9.16 The Parties will provide financial information to the Chief Finance Officer and the Integration Joint Board on a monthly basis regarding Integrated Services directed in line with the Strategic Plan and for NHS Tayside, the associated 'large hospital' set aside financial performance including actual activity levels. The frequency, form and content of reports will be agreed with the Chief Finance Officer.
- 9.17 The Chief Finance Officer will ensure routine financial reports are available to the Chief Officer and the Integration Joint Board on a timely basis and include, as a minimum, annual budget, full year outturn projection and commentary on material variances. All Integration Joint Board finance reports will be shared with the Parties simultaneously.
- 9.18 Where an unplanned year end overspend in the Integration Joint Board's budget is projected in respect of the Integrated Services for which the Chief Officer has Operational Management responsibility, the Chief Officer and the Chief Finance Officer must present a recovery plan to the Integration Joint Board and the Parties to address in year overspends and any recurring overspends for future financial years. If a projected overspend relates to Integrated Services operationally managed by the Chief Officer (Acute Services) or the Executive Lead for Mental Health and Learning Disability, then they must present a recovery plan to the IJB and NHS Tayside to address in year overspends and any recurring overspends in future years
- 9.19 In the event that the recovery plan is unsuccessful, and an overspend is evident at the year end, uncommitted reserves held by the Integration Joint Board would firstly be used to address any overspend. If, after the application of reserves, there remains a forecast overspend, a revised Strategic Plan must be developed to enable the overspend to be managed in subsequent years.

- 9.20 In the event that an overspend is evident following the application of a recovery plan, use of reserves or where the Strategic Plan cannot be adjusted, the overspend may be shared in proportion to the spending Direction for each Party for that financial year, adjusting these spending Directions to ensure the Parties budgets are on a like for like basis. Where the Parties make additional payments to cover an overspend, then the Parties will discuss whether recovery of those additional payments in future years from the IJB should be pursued. In the event that the Parties agree that the recovery of additional payments is to be pursued, this will be over a maximum period of 3 years on a basis and repayment profile to be agreed between the Parties, in consultation with the IJB. Consideration of whether to recover additional payments made by the Parties will be informed by an assessment of the reasons for these payments and the implications for the Parties and IJB of doing so.
- 9.21 In the event that an underspend is evident, within the Integration Joint Board's year end position, this will be retained by the Integration Joint Board in line with the IJB reserves policy unless the following conditions apply:
- Where a clear error has been made in calculating the budget Requisition; or
 - In other circumstances agreed through a tripartite agreement between the Parties and the Integration Joint Board.
- 9.22 If the conditions in 9.21 apply, the underspend will be returned to each of the Parties in proportion to the spending Direction for each Party for that financial year, adjusting these spending Directions to ensure the Parties budgets are on a like for like basis.
- 9.23 Balancing payments may require to be made between the Parties to reflect imbalances between Requisitions and the amount of Integrated Budget. The frequency and timing of any such payment will be agreed between the Parties and the Integration Joint Board.
- 9.24 In exceptional circumstances the Parties may agree to reduce the payment in-year to the Integration Joint Board. Exceptional circumstances will only be considered where the situation faced by the Parties could not have reasonably been foreseen at the time the Integrated Budget for the year was agreed. Consideration must be made by the Parties as to the use of contingency amounts or accessible reserves held by the Parties in the first instance prior to approaching the Integration Joint Board with a proposal to reduce in-year payments. The proposal must be agreed through a tri- partite agreement between the Integration Joint Board and the Parties.
- 9.25 In the event that a material calculation error in the spending Directions provided by the Integration Joint Board to the Parties is discovered, this will be adjusted for and revised Directions issued to the Parties.

- 9.26 Parties may increase the payment in year to the Integration Joint Board for supplementary allocations in relation to the Delegated Functions approved for the Integration Joint Board which could not have been reasonably foreseen at the time the Integrated Budget for the year was agreed. Proposals must be agreed through a tripartite agreement between the Parties and the Integration Joint Board.
- 9.27 The Strategic Plan will provide the basis for the Integration Joint Board to present proposals to the Parties to influence capital budgets and prioritisation.
- 9.28 The Integration Joint Board will not hold any Non-Current Assets or related debts. The Integration Joint Board will require to develop a business case for any planned investment, or change in use of assets, for consideration by the Parties.
- 9.29 The Chief Finance Officer will make annual capital budget requests to the Parties in the format reflected within their respective budget guidance and to align with their respective budget setting timetables.
- 9.30 Any profit or loss on the sale of an asset owned by NHS Tayside will be retained by NHS Tayside and any proceeds on the sale of an asset owned by the Council will be retained by the Council unless agreed otherwise or as required to reflect national guidance.

10.6 The Parties will continue to allocate responsibility to senior managers and their teams to support local public and staff involvement and communication.

11. INFORMATION SHARING AND DATA HANDLING

11.2 The Parties, alongside other relevant stakeholders will ensure that there are appropriate high level information sharing protocols in place to govern information sharing and data handling arrangements. The Parties have developed an Information Sharing Protocol which covers guidance and procedures for staff for sharing of information. This will be reviewed regularly.

- 11.3 The Data Protection Officers of NHS Tayside, the Council and the IJB, acting on behalf of the Parties, will meet annually, or more frequently, if required, to review the Information Sharing Protocol and will provide a report detailing recommendations for amendments, for the consideration of the IJB, Council and NHS Tayside.
- 11.4 With regard to personally identifiable material, data will be held in both electronic and paper formats. It will only be accessed by authorised staff, in order to provide the patient or service user with the appropriate service, when doing so is required by law, in order to protect an individual's vital interests or for another purpose permitted by data protection legislation.
- 11.5 In order to provide fully Integrated Services it will be necessary to share personal information between the parties and with external agencies. Where this is the case, the Parties and the IJB will apply a legal basis contained in Article 6 of the UK General Data Protection Regulations (the "UK GDPR"). Generally, this will be either public task or legal obligation but, where appropriate, any of the other legal bases contained in Article 6 will be used. Appropriate information governance assessments to demonstrate due diligence to meet the required data protection obligations will be undertaken, when required.
- 11.6 Where the sharing consists of 'special category' information, the legal basis for processing will be consistent with the requirements of Article 9 of the UK GDPR and schedule 1 of the Data Protection Act 2018 (the "DPA").
- 11.7 In order to comply with the requirements of the DPA and the UK GDPR, the Parties and the IJB will always ensure that personal data it holds will be processed in line with the Data Protection Principles contained within Article 5 of the UK GDPR and section 35 - 40 of the DPA.

12. COMPLAINTS

The Parties agree the following arrangements in respect of complaints on behalf of, or by, service users:

- 12.1 Both Parties will retain separate complaints policies reflecting the distinct statutory requirements. The Parties agree to work towards integrated complaints procedure from the earliest point of contact as far as the differing legislative requirements will allow.
- 12.2 The Parties agree that complaints should be viewed with a positive attitude and valued as feedback on service performance leading to a culture of good service delivery. The Parties agree the principle of early frontline resolution to complaints and the Parties will efficiently direct complaints to ensure an appropriate response.
- 12.3 There will be a single point of contact for complainants in relation to Integrated Services. This will be agreed between the Parties to co-ordinate complaints specific to the Delegated Functions to ensure that the requirements of existing legal/prescribed elements of health and social care complaints processes are met.

- 12.4 All complaints procedures will be clearly explained, well publicised, accessible, will allow for timely recourse and will sign-post independent advocacy services.
- 12.5 The person making the complaint will always be informed which Complaints Handling Procedure is being applied to their complaint.
- 12.6 The Parties will produce a quarterly joint report, outlining the learning from upheld complaints. This will be provided for consideration by the Clinical, Care and Professional Governance Group.
- 12.7 This arrangement will respect the statutory and corporate complaints handling processes currently in place for health and social care services. This arrangement will benefit carers and service users by making use of existing complaints procedures and will not create an additional complaint handling process.
- 12.8 Data sharing requirements relating to any complaint will follow the Information and Data sharing protocol set out in section 10 of this Scheme.

13. CLAIMS HANDLING, LIABILITY & INDEMNITY

- 13.1 The Parties recognise that they could receive a claim arising from, or which relates to, the work undertaken as directed, and on behalf of, the Integration Joint Board.

14. RISK MANAGEMENT

- 14.1 The Parties and the Integration Joint Boards in Tayside will agree a Shared Risk Management strategy. The primary objectives of this strategy are to:

- Promote awareness of risk and define responsibility for managing risk;
- Establish communication and sharing of risk information; and
- Initiate measures to reduce exposure to risk and potential loss through the design & implementation of robust portfolios of internal controls; and establish standards and principles for the efficient management of risk, including regular monitoring, reporting and review.

- 14.2 The strategy will be reviewed every three years.
- 14.3 The Integration Joint Board will be responsible for managing strategic risk. The Parties will retain responsibility for managing Operational Risks.
- 14.4 The Parties will make relevant resources available to support the Integration Joint Board in its risk management.
- 14.5 The Parties will maintain their own risk management strategies, systems and processes in relation to the management of risk, inclusive of Operational Risk. The Parties will make information on Operational Risks available to the Chief Officer at a minimum of quarterly to support assessment of strategic risk by the Integration Joint Board. Where a number of Operational Risks impact across multiple service areas or, because of interdependencies, require more strategic leadership, these risks will be escalated to the Chief Officer as having 'strategic risk' status for the attention of the Integration Joint Board. The Chief Officer will maintain a register of strategic risks for the Integration Joint Board and will share this with the Parties quarterly to support understanding
- 14.6 The Chief Officer will have overall responsibility for the Integration Joint Board's strategic risk management framework, ensuring that suitable and effective arrangements are in place to manage the risks relating to the functions within the scope of the IJB. The Chief Officer will keep the Parties informed of any significant, existing or emerging risks that could seriously impact the Integration Joint Board's ability to deliver the outcomes of their Strategic Plans or the reputation of the Integration Joint Board or the Parties.
- 14.7 The Parties and the Integration Joint Board will consider these risks at least annually and notify each other where they have changed.
