

CPC Improvement Plan 1 April 2023 – 31 July 2026

Initial Progress / Update Report @ 30 September 2024

Approved & Published by the CPC: 6 June 2023

Getting it Right
in Perth and Kinross
Helping children be the best they can be

Introduction

Welcome to the Perth and Kinross Child Protection Committee (CPC) Improvement Plan 1 April 2023 – 31 July 2026.

This Three-Year Improvement Plan builds upon previous CPC Improvement Plans and our ongoing commitment to continuous improvement through single and multi-agency quality assurance and self-evaluation work; as we continue to strive for excellence in all aspects of our partnership work to protect children and young people.

This CPC Improvement Plan is aligned with, and strongly supports, the [Tayside Plan for Infants, Children, Young People and Families 2023 - 2026](#) and the [Perth and Kinross Community Plan \(Local Outcomes Improvement Plan\) 2022 – 2032](#).

Perth and Kinross CPC and partners are committed to [continuous improvement through quality assurance and self-evaluation](#); as demonstrated by this CPC Improvement Plan. This shared commitment is also demonstrated through our partnership CPC Business Model; CPC Quality Assurance and Self-Evaluation Framework; CPC Monthly Management Information and Performance Outcome Framework (CPC Monthly Dataset Reports); CPC Annual Self-Evaluation Programme; CPC Annual Development Days and our CPC Annual Standards and Quality Reports.

National Context

The Scottish Government wants Scotland to be the best place in the world for children and young people to grow up so that they become: *successful learners; confident individuals; effective contributors and responsible citizens* and where children are *loved, safe and respected, so that they can reach their full potential*.

All children and young people (including unborn babies) have the right to be cared for and protected from harm, abuse, neglect and exploitation and to grow up in a safe environment, in which their rights are respected, and their needs are met. Children and young people should get the right support; at the right time; from the right people and their safety is always paramount.

The care and protection of children and young people in Scotland is set within the wider policy context of [Getting it right for every child \(GIRFEC\)](#); the [UN Convention on the Rights of the Child](#) and within the findings from the [Independent Care Review: The Promise](#) (2020) which clearly advocates Scotland's Ambition for children and young people – *we grow up loved, safe and respected so that we realise our full potential*.

We also acknowledge [The Plan 2021 – 2024](#) which sets out the current five priority areas and key milestones – *the right to a childhood; whole family support; supporting the workforce; planning and building capacity*.

[GIRFEC](#) promotes action to improve the wellbeing of all children and young people across eight indicators of wellbeing. The GIRFEC approach has been tested and developed across Scotland since 2006. It is based on research evidence and the experiences of practitioners, families and children.

The [GIRFEC wellbeing indicators \(SHANARRI\)](#) are designed to optimise wellbeing and guide staff working with children, young people and their families to ensure that they are as **safe; healthy; achieving; nurtured; active; respected; responsible and included** as they can be.

Tayside Context

Tayside Plan

Within and across Tayside, the [Tayside Plan for Infants, Children, Young People and Families 2023 - 2026](#) continues to be the shared / joint plan produced by the three Community Planning Partnership (CPP) areas of Angus, Dundee and Perth and Kinross.

It reflects our shared leadership towards multi-agency, cross-border collaboration in the planning, management, commissioning, delivery, evaluation and improvement of services to children, young people and families. It also reflects a shared and longstanding commitment to implementing [Getting it right for every child \(GIRFEC\)](#).

The Plan has been developed by the three Tayside Councils, NHS Tayside, Police Scotland, Health and Social Care Partnerships, the Third Sector and other organisations to ensure a consistent approach towards agreed priorities and an absolute focus on improving outcomes for all children, young people and families, regardless of their circumstances.

Tayside Plan – Our Vision

The Plan will achieve the Vision of ensuring that:

“Our children and young people will have the best start in life and Tayside will be the best place in Scotland to grow up”

Tayside Plan – Our Five Priorities

1. *Our children will have the **best start in life***
2. *Our children, young people and families **will achieve and make positive contributions** to communities*
3. *Our children and young people will **enjoy good physical and mental health***
4. *Our children and young people will have their **rights protected and their voices heard***
5. *Our children and young people will be **safe and loved***

Tayside Plan – Our Guiding Principles

- Rights based – this means that there is evidence that children’s rights are considered in everything we do and that rights are promoted or enhanced by what we are doing
- Easily understood and accessible – we will make sure that we clearly say what we are doing and what difference it will make. We won’t use confusing or stigmatising language, acronyms or jargon to ensure everyone has the same understanding of what we want to do
- Based on what people with lived experience tell us – this means asking, listening, and acting on the voice and experience of people who use services and have lived experience

- Linked clearly to evidence – it will be clear what our evidence base shows and we will measure the difference we are making. This will include use of data measures and the views of those accessing services, staff working with families, national impact reports and local research etc
- Making the best use of resources – the benefits of working together on a Tayside basis and across different agencies/services will be clearly stated

Perth and Kinross Context

Perth and Kinross Community Plan

Within Perth and Kinross, the [Perth and Kinross Community Plan \(Local Outcomes Improvement Plan\) 2022 – 2032](#) clearly articulates an ambitious vision for the future of our area, our communities and our families. The Plan clearly describes how the [Perth and Kinross Community Planning Partnership](#) (CPP) will achieve our shared ambition for excellence.

This is our Plan for positive outcomes for everyone in the area and in particular to tackle stubborn and persistent inequalities which can reduce life chances and opportunities for people. The Plan is about improving the lives and experiences of everyone who lives, works and visits here. Its development and delivery is overseen by the CPP comprising public, private and third sector bodies.

Perth and Kinross Community Plan Vision

The vision is simple and is:

“Creating a confident, ambitious and fairer Perth and Kinross, for all who live and work here – for everyone to live life well, free from poverty and inequality”

Perth and Kinross Community Plan Strategic Objectives

The Plan contains five strategic objectives to deliver the vision:

1. Reducing poverty
2. Physical and mental wellbeing
3. Digital participation
4. Learning and development
5. Employability

Work of the Perth and Kinross Child Protection Committee (CPC)

The work of the [Perth and Kinross Child Protection Committee](#) in protecting children and young people from harm, abuse, neglect and exploitation and in keeping them safe, is fundamental to realising our vision for improving wellbeing and ensuring better outcomes for our most vulnerable and at risk children and young people.

The work of the CPC is articulated in this CPC Improvement Plan, which is aligned with and supports both the [Tayside Plan for Infants, Children, Young People and Families 2023 - 2026](#) and the [Perth and Kinross Community Plan \(Local Outcomes Improvement Plan\) 2022 – 2032](#).

The CPC supports the ethos that ***getting it right for every child is everyone's job*** and that it is ***still everyone's responsibility to keep children safe***.

Underpinning National Policy Documents

Underpinning the work of the CPC are *three key* national child protection policy documents; namely [National Guidance for Child Protection in Scotland 2021 - updated 2023](#) (Scottish Government: 2021 and 2023); [Protecting Children and Young People: Child Protection Committee and Chief Officer Responsibilities](#) (Scottish Government: 2019) and [A Quality Framework for Children and Young People in Need of Care and Protection](#) (Care Inspectorate: November 2022).

[Protecting Children and Young People: Child Protection Committee and Chief Officer Responsibilities](#) (Scottish Government: 2019) describes the functions of Child Protection Committees as:

- *Continuous improvement*
- *Public information, engagement and participation*
- *Strategic planning and connections*
- *Annual reporting on the work of the CPC*

About this CPC Improvement Plan 1 April 2023 – 31 July 2026

This Three-Year CPC Improvement Plan has been published as an agreed statement of intent, which partners are jointly committed to deliver; confirming that our capacity for improvement remains very strong. It is both ambitious and comprehensive.

It is our individual and collective continuous improvement programme for services to protect children and young people in Perth and Kinross. It describes and sets out our planned programme of improvements for 2023 – 2026. It is a dynamic Plan and further areas for development and / or improvement will be added as and when required.

In developing this CPC Improvement Plan, we have taken cognisance of the various national and local drivers; including existing and emerging legislative and policy changes. It has taken cognisance of previous and existing improvement planning frameworks and existing and emerging scrutiny and inspection frameworks. It has also taken cognisance of recent local quality assurance, self-evaluation and review activities and from the learning identified from Learning Reviews.

It has been structured in alignment with research work carried out across Tayside by Dr Sharon Vincent, Northumbria University, which identified key areas for practice improvement, which have been translated into 6 Priorities for Practice. These are:

Relationship with Children and Families:

1. *Focus on the Child*
2. *Engagement and Relationship Building*
3. *Assessment and Planning*

Working Together:

4. *Early Intervention and Support (Right Help at Right Time)*
5. *Partnership Working*
6. *Empowerment, Supervision and Leadership*

This CPC Improvement Plan **contains a number of Actions / Tasks**; some of which are a priority and others which are ongoing and / or maintenance. These are presented in a way which is intended to be SMART: ***specific; measurable; achievable; realistic*** and ***time limited***.

Each Action / Task is aimed at keeping children and young people safe; protecting them from harm, abuse, neglect and exploitation and at delivering better outcomes for children, young people and their families. Strategic Leads are identified for each of the Actions / Tasks. It includes indicative / flexible Timescales. A number of the Actions / Tasks, where possible, may be supported by staff learning and development opportunities and with follow-up quality assurance processes.

Monitoring, Evaluation, Outcomes and Impact

The CPC is the owner of this Improvement Plan.

The Child Protection Inter-Agency Coordinator will be responsible for coordinating this Plan on behalf of the CPC.

The CPC will work in partnership with the CPC Working Groups and Strategic Leads to ensure they understand the Plan; have a clear ownership for the respective Actions / Tasks in the Plan and will support them as they implement the Plan.

The CPC will monitor, evaluate and review the Plan on a regular basis. The CPC and the CPC Quality Assurance Working Group will work in partnership to evaluate the impact of this Plan.

The CPC will receive regular progress / update reports on each Action / Task and will, in turn, provide regular updates to the Perth and Kinross Children, Young People and Families Partnership (CYPFP); Chief Officers' Group (COG) and to the Protecting People Coordination Group (PPCG).

The CPC will produce an annual progress report on the Plan, which will form an appendix to the CPC's Annual Standards and Quality Report, and this will be similarly reported the previously mentioned Groups, to partner agencies and will additionally be reported to Perth and Kinross Council Elected Members and shared with the Care Inspectorate for scrutiny purposes.

Priority 1: Relationship with Children and Families					
Outcome 1 – Focus on the Child					
<i>We will keep the child¹ at the centre of our work. We will see them, listen to them and focus on their physical, mental and emotional wellbeing. We will see beyond their outward presentation and seek to understand their lived experience. We will actively seek and support them to express their views, when assessing their needs and any potential risks. We will always involve them in assessment, planning and decision-making. We will be inquisitive, curious and alert to parental disguised non-compliance. The risks of disproportionate optimism, in respect of the parent's² potential to improve, will be fully understood and resisted. The child's welfare is always paramount.</i>
